

Ilmenteo River, which runs across the northeast tip of Italy, from the Alps to the sea, and offers a natural line of defense for the plans of Northern Italy. This line is shorter than the old one, and apparently was more practicable for defensive purposes, but it is not certain that the Italian commander, General Cadorna, intended to hold it, as he may not have had sufficient time to organize it, electing merely to defend it while preparing another line further back.

Pinzano is on the northern edge of the plain, in the foothills of the Alps. It is about forty miles north of the Adriatic.

**SHOWS PURPOSE OF ENEMY TO ATTACK FROM NORTH**

ITALIAN HEADQUARTERS IN NORTHERN ITALY, November 5.—The reports of heavy artillery fire on both banks of the Tagliamento, with chief pressure on the Italian left wing, shows that the enemy is trying to throw his main body into the plain of the Western Front.

The enemy attack in the Giudicaria Valley, on the Trentino Front, also shows clearly his purpose to make a mass attack from the north.

The Italian authorities highly appreciate the work of the American Red Cross, which is supplementing the conscription service. The British Red Cross rendered during the recent retreat.

**ONLY LIVERLY ARTILLERY FIRING IN FLANDERS**

BERLIN, November 5.—The text of the German official report on military operations in France and Belgium reads:

"Western theater: In Flanders the visibility being bad, there was only lively artillery firing, notably in the Yser lowland, in the evening. A powerful and destructive fire was directed in the course of the night on the latter area and in the fighting district between Houthulst wood and the Comines-Ypres Canal.

"British reconnoitering detachments many times pushed forward. They were repulsed everywhere.

**NEW POISONOUS GAS USED BY AUSTRONIANS**

AMSTERDAM, November 5.—According to the correspondent at Gorizia, the Budapest newspaper, Pest-Hilarn, the Austrians made their attack upon Gorizia with a new poisonous gas, the secretion of a Vienna professor, and the rain which fell during the attack, it is explained, kept the fumes close to the ground and rendered the Italian masks useless against the new invention, which the correspondent declares is 100 times stronger and more deadly than the gas used in former attacks on the same front.

**RUSSIANS DRIVE TURKS FROM FIRST LINE**

PETROGRAD, November 5.—In the region of the Black Sea coast the Russians have driven the Turks from their first line and advanced in some places to the third line. The War office announces. Much booty was captured.

## FUEL ADMINISTRATION TO REQUISITION COAL

Will Take to 75 Per Cent of Output of Virtually All Mines to Be Distributed by the Government to Meet Emergency Requirements Wherever They May Arise.

WASHINGTON, November 5.—An order requisitioning for the government 75 per cent of the output of virtually every coal mine in the country will be issued by the fuel administration probably to-morrow. The coal will be distributed by the government to meet emergency requirements wherever they may arise.

Consumption is keeping pace with production, but the fuel administration is keeping a close watch on the situation. It is expected that the government will be able to meet the situation.

Operators will be directed to trim contracts generally to furnish the 75 per cent desired.

Within a short time the fuel administration will classify all industries in the order of their importance and will direct that they be supplied with coal according to their classification. Industries which are considered essential will be classified under the first, second and others will be rated as to the priority of the government they should be supplied.

## BITTER CAMPAIGN IN NEW YORK CITY COMES TO CLOSE

(Continued from First Page.)

has developed in the last few days over the question of granting State aid to private institutions. This issue is contained in one of the three proposed amendments to the State Constitution which will appear on the ballots in to-morrow's election.

The gubernatorial race between Governor McCall, Republican, who seeks a third term, and his Democratic opponent, Frederick W. M. Mansfield, who also opposed him last time, has been overshadowed by the war.

The Democrats have conducted an active speaking campaign, but Governor McCall has spoken only once.

## MAY REFLECT FEELING FOR AND AGAINST WAR

CHICAGO, November 5.—Judicial elections here to-morrow is expected to reflect to an extent feeling for and against the war. The Socialists nominated a full ticket, and Democrats and Republicans alike have sought to stir voters out of their customary apathy by such elections in order to show the Socialists just where the bulk of the citizenship stands on the subject.

## PROHIBITION AMENDMENT BEFORE NEW MEXICAN VOTERS

ALBUQUERQUE, N. M., November 5.—New Mexican voters will ballot to-morrow on a prohibition constitutional amendment. The amendment would become effective October 1, 1918. There are no large distilling interests in New Mexico and only three breweries.

## WESTMORELAND DAVIS CLOSES HIS CAMPAIGN

Marches at Head of Great Parade in Winchester and Addresses Immense Audience.

FEELS CONFIDENT OF SUCCESS

District Attorney Byrd Declares Nominee Should Get Vote of Every Democrat in Virginia, His Victory in Primary Being a Popular One.

(Special to The Times-Dispatch.)

WINCHESTER, VA., November 5.—Westmoreland Davis, Democratic nominee for governor, closed his campaign to-night at a monster rally in the Empire Theater, addressing an audience of men and women that packed the house. Mr. Davis marched at the head of a great parade of patriots. Representative Thomas Harrison, of the Winchester District, spoke from the same platform. They were introduced by Ray Williams, of the city committee.

Mr. Davis, while he is not a politician, is a man of the people, and he has endeavored to be frank with the people, and has not hesitated to state his position on all public questions.

He declined to make a prediction as to the size of his majority. He stated, however, that this appears to be a Democratic year, and he is awaiting the verdict of the people with confidence of success. He left to-night for his home at Leesburg, where he will vote to-morrow.

District Attorney Richard Evelyn Byrd, who is to vote, said to-night: "Westmoreland Davis should get the vote of every Democrat in Virginia. His election by the Democratic primary was in a peculiar sense a popular election. He had no recognized organization and few prominent political classes supporting him. The people themselves nominated him. He will go into office with no obligation except to his State. He has a great opportunity, and I predict great success for him, to it because he has ability, courage and sincerity, and no entangling alliance."

## FLOOD AND ANDERSON MAKE SPEECHES IN LEXINGTON

(Special to The Times-Dispatch.)

LEXINGTON, VA., November 5.—The political campaign was brought to a climax at Rockbridge to-day, when two meetings were held at the courthouse. One was addressed by Representative H. D. Flood, member of Congress from this district, and William A. Anderson, Democratic candidate for the General Assembly from Rockbridge. The other meeting was addressed by Representative H. D. Flood, member of Congress from this district, and William A. Anderson, Democratic candidate for the General Assembly from Rockbridge. The other meeting was addressed by Representative H. D. Flood, member of Congress from this district, and William A. Anderson, Democratic candidate for the General Assembly from Rockbridge.

## ROLSTON AND WRIGHT LIKELY TO BE RE-ELECTED

HARRISONBURG, VA., November 5.—Dr. C. H. Rolston, Democrat, and Professor Frank L. Wright, Republican, are believed reasonably sure of re-election to the House from the district composed of Harrisonburg and Rockbridge counties. Each party made only one nomination, and each party is not drawn, many voters, regardless of politics, will support Rolston and Wright. Professor G. H. Hulvey, candidate for the House from Rockbridge, will receive a large vote in some sections of the county. His friends claim he has a good chance of election. Rolston and Wright are considered the best candidates.

## MISS JANE MORGAN TO WED

Financially Sound Daughter Will Be Married To-Morrow to George Nichols, of Oyster Bay.

OYSTER BAY, N. Y., November 5.—Miss Jane Morgan, daughter of J. Pierpont Morgan, and George Nichols, secured a license to-day to be married on Wednesday at Mr. Morgan's summer home at Glen Cove. The ceremony will be simple, followed by a reception and a breakfast. No one accompanied the couple to the town clerk's office. They came in Mr. Nichols' automobile. Miss Morgan gave her age as twenty-three. Nichols is thirty-nine.

Miss Morgan has been prominently identified with the Red Cross, and last year was in France doing relief work. Nichols is a son of Mr. and Mrs. John T. Nichols, of New York. He has lived much of his time at the country home at Glen Cove, Oyster Bay, not far from the Morgan estate. He graduated from Harvard in 1909, and is an expert yachtsman.

## RAISING MAINTENANCE FUND

V. W. C. A. Seeks \$12,000 to Carry on Its Work for Coming Year.

The campaign for the \$12,000 maintenance fund for the Young Women's Christian Association started yesterday and will last all this week. The workers are making a simple and effective appeal to the business men of Richmond. Admission fees can be raised to the point where the institution is self-supporting, but if this is done the V. W. C. A. will fail to reach the great body of poorly paid working women of small means, for which its work is chiefly intended. It is to meet the difference between what these women are able to pay and what the work costs that the maintenance fund is being subscribed. That there is no element of charity in this is shown by the workers who point to the fact that no university or college in America could begin to offer its courses if even double the fees paid by students, all such institutions depending either on State support or the gifts of liberal people.

## JEWISH CHAPLAIN IN NAVY

Hahbi Goldberg First of His Race to Get Appointment From Daniels.

WASHINGTON, November 5.—The first Jewish chaplain in the United States Navy was named to-day. He is Hahbi David Goldberg, of Corsicana, Texas. His commission was signed by Secretary Daniels this afternoon, and forwarded to him. After passing a physical examination he will be assigned to active duty, whether on the fleet or ashore could not be learned this evening.

This step was made necessary by the large number of Jews who have enlisted in the navy since war was declared.

## EVEN FULL 5 PER CENT NOT ENOUGH FOR ROADS

Eastern Lines Lay Before I. C. C. Their Case for Substantial Increases in Rates to Meet Growing Expenses. Shippers Will Abide by Result of Investigation.

(By Associated Press.)

WASHINGTON, November 5.—Eastern railroads laid before the Interstate Commerce Commission to-day their case for substantial increases in freight rates to meet increased expenses under war conditions. The presidents of seven roads and counsel for many more, summoned by the commission to make statements in the reopened 15 per cent advance rate case, joined in submitting that in spite of increased gross earnings, railroad net revenues have decreased to such an extent that even granting of the full 15 per cent increase would not provide for necessary improvements and a fair return on invested capital.

Clifton Thorne, representing oil companies, grain dealers and live stock interests, told the commission that while his clients opposed any increase, they were entirely willing to abide by the result of the investigation. Other shippers took similar views.

Chairman Hall announced that the commission expected to have all evidence in by the end of next week. Thursday, November 15, was set for cross-examination of such of the railroad witnesses as shippers may desire to recall, and on Saturday, November 17, argument will be heard.

While the hearing was in progress to-day, John Skelton Williams, controller of the Currency, issued a formal statement, predicting that the commission would authorize the increases, and declaring that the present railroad rates are not high enough to maintain the credit of the roads.

An important development was the filing by railroads entering Boston of applications for authority to increase passenger rates, involving some millions of dollars additional revenue. Other New England roads, it was announced, will file similar applications.

**STABILITY MENACED BY PREVAILING RATES**

"We cannot afford to make mistakes," declared Samuel Hays, president of the Pennsylvania Railroad, in opening the case. "It is not a time for panic, but neither is it a time for disregarding the facts of increasing expenses, of diminishing net operating income, of deferred maintenance, of lack of present facilities, and inability to provide future ones."

War-time conditions, with the resultant increase in the cost of labor and materials make it imperative that an advance over the present rates be granted, asserted counsel representing thirty-eight systems operating east of the Mississippi and north of the Ohio River. If the roads are to handle adequately the great volume of wartime traffic without incurring the imminent risk of financial reverses, better provision, it was pointed out, must be made by the government.

## RELIEF OF PRIMARY NATIONAL IMPORTANCE

With the successful prosecution of the war the paramount duty of the nation, and the effectiveness of the mobilized industrial machine to supply men, munitions and foodstuffs limited to a great extent by transportation resources, it was urged, that no means of maintaining adequate railroad facilities and of strengthening "impaired railroad credit" be neglected.

Decision to reopen the case, after an interval of four months, was announced by the commission in a recent letter to George Stuart Patterson, chief counsel for the railroads. Although the hearing affects immediately only those roads operating in the East, the result is expected to have a bearing on rates throughout the country. Daily hearings will continue for several weeks, it is believed, with prospect that disposition of the case will come before the end of the year.

Some railroad representatives who were on hand prepared to make general statements when the hearing began were Alfred H. Smith, of the New York Central; James H. Hustis, of the

## DESTROYER SUNK IN UNEQUAL STRUGGLE

In the midst of the massacre, another British destroyer came up, and immediately attacked, but was soon sunk in the unequal struggle. The German flotilla then cruised backward and forward among the sinking steamers, pouring a fresh and terrible rain of shells at a range of 100 yards. One shell went through the Swedish ship Winard, exploding in a lifeboat on the other side, and killing all its occupants, four men and three women. The other lifeboat rowed back to rescue the captain and two waitresses from the wreck. A shell struck the boat and killed five of its occupants, only the mate escaping by swimming. The Winard was a mass of flames, and the two girls jumped into the sea. The captain was saved by clinging to wreckage. As the two young women were sinking, an English ship hoisted the white flag. The answer of the Germans was a shot which killed both girls. One man and one woman were just out into the lifeboat when a shell killed them all.

## MAXIMUM STEEL PRICES APPROVED BY PRESIDENT

Figures Based on Those Named in Recent Arrangement With Producers.

WASHINGTON, November 5.—Maximum prices on cold rolled steel, pipe, scrap sheets, wire and tin plate, agreed on by the War Industries Board and steel producers, were approved to-day by President Wilson.

The figures are based on those named in a recent arrangement made by the board with producers setting basic prices on steel and iron and on the materials entering into their manufacture. The prices fixed will apply to all transactions, government, allied and public, and are subject to revision January 1, 1918.

The prices set to-day are as follows: The price for sheets range from \$4.25 to \$6.25 per 100 pounds, f. o. b. Pittsburgh, according to grades. The agreement on cold rolled steel was 17 per cent discount from the March 15, 1915, list, f. o. b. Pittsburgh.

Other prices for scrap iron, f. o. b. consuming point were: Number 1, \$20 per ton; \$20 per gross ton; cast-iron burnings and machine-shop turnings, \$20 per gross ton; number 1 railroad wrought iron, \$35 per gross ton. The plain wire price was set at 2.25 per 100 pounds, f. o. b. Pittsburgh. For tin plate the price fixed for coke base Bessemer and open hearth products was \$7.75 per 100 pounds box, f. o. b. Pittsburgh.

## DEATHS IN VIRGINIA

Mrs. Katherine Hall.

HEATHSVILLE, VA., November 5.—Mrs. Katherine Hall died at her home, near Riedville, Friday, aged about seventy-nine. Interment was made Sunday at Bethany Church. Funeral services were conducted by Revs. Cooper and Reary, of the Baptist Church. Mrs. Hall is survived by one son, Thomas E. Hall, and three sisters.

Mrs. Fannie L. Lawhorne.

(Special to The Times-Dispatch.)

LYNCHBURG, VA., November 5.—Mrs. Fannie Lillian Lawhorne, fifty

years of age, wife of G. B. Lawhorne, died Sunday morning at 1 o'clock at the home of the family here.

Mrs. Martha G. Moore.

WYTHEVILLE, VA., November 5.—Mrs. Martha Glascock Moore, wife of Dr. H. E. Moore, of Wytheville, died at her residence last evening at 8:30 o'clock in the seventy-seventh year of her age. Mrs. Moore was Miss Martha Glascock, of Loudoun County, and was married May 21, 1865. She spent her married life in Wytheville, where her husband enjoyed a large and successful practice until the infirmities of age required him to abandon his profession. She is survived by her husband, four sons and three daughters. In large mining interests in Virginia she has five children. Her pastor, Rev. A. B. Brooks, of Coeburn, will conduct the funeral Wednesday morning.

Mrs. George W. Lambert.

(Special to The Times-Dispatch.)

HOLLINS, VA., November 5.—Mrs. George W. Lambert died at the residence of her daughter, Mrs. A. Coon, this afternoon, in her seventy-sixth year. Her husband, who is interested in large mining interests in Virginia, survives her. She is survived by five children. Her pastor, Rev. A. B. Brooks, of Coeburn, will conduct the funeral Wednesday morning.

## NEW YORK FIGHTING MEN IN FRANCE CAST BALLOTS

Soldiers, Sailors and Marines Vote for State, County and City Officers.

TO BE FORWARDED AT ONCE

Interest Centers in Majority Campaign in New York City, There Being Little Attention Given to Suffrage Amendment.

(By Associated Press.)

WITH THE AMERICAN ARMY IN FRANCE, November 5.—American soldiers, sailors and marines stationed in Paris, in other French cities and at the American general headquarters who are legal residents of New York State, voted to-day for State, county and city officers. New York voters with units in other parts of France cast their ballots there last week. The voting in Paris was done at the Hotel Sainte Anne. The hotel office is being used for the polling booth. A captain of marines and two marines, who are residents of New York, were sworn in as election officers. Each voter received an envelope enclosing the ballot of his district. After marking the ballot, it was placed in the envelope and sealed by the voter, who wrote thereon his name, residence and command, and signed an oath that he was a legally qualified voter.

The first voter was a Young Men's Christian Association secretary whose home is in New York City. His vote was accepted conditionally, pending a ruling whether members of the Young Men's Christian Association attached to the expeditionary forces are entitled to vote.

Fifteen votes were cast in the first hour.

The interest here centers in the New York majority fight. Little attention is given to the suffrage amendment. As soon as the voting has been completed, the boxes will be sealed and taken to New York. The ballots will be counted in the electoral districts in which the men reside.

**BY WHISTLING SHELLS**

The votes of one American railway engineering unit in a British sector were taken in a field which was under a bombardment by German guns. The engineers nonchalantly marked their ballots in a shack behind the lines as German shells whistled intermittently overhead.

The voting was interrupted for a few minutes while the voters and election officers witnessed a thrilling air fight between English and German machines at a point nearly over the voting place. When the German machines had been driven behind their own lines, hotly pursued by enemy aviators, the voters resumed marking their ballots against the side of the shack.

The ballot boxes are being placed in sealed mail bags by the commanders of the units and they will be taken to the United States by way of England by the election commissioners, who expect to be home not later than December 12.

## RICHMOND PEOPLE GIVE STATE REGIMENTS FLAGS

(Continued from First Page.)

Letters are handed monthly, with all most a like amount of registered letters.

In the present building it is impossible to handle this quantity of mail. Representations were made to the War Department with a request that permission be granted to enlarge the post office, but this has been turned down by the War Department, which stated that all funds available for cantonment construction had been expended, and that any additions to the camp post-office could have to be made by the Post-office Department. These authorities refuse to do so, which makes the situation hopeless.

Already the building is far too small and, as a consequence, several loads of mail are left on the outside of the office daily. In fair weather it can be handled, but in case of rain or snow it will be impossible to let the mail remain outdoors unless it is ruined. This is the condition that has been existing for some time, and which will continue until some remedy in the way of additional office space is provided.

## THANKSGIVING PACKAGES

MA BE LONG DELAYED

But, to add to the situation and tending to make it worse are the much enlarged mails which will be coming in for Thanksgiving, and which will continue until beyond Christmas. With the present congestion so great that it is impossible to handle mail satisfactorily, officers are standing almost aghast at the certain condition that

they will have to face with the holiday

Lieutenant C. P. Boyce, who is in charge of the post-office, is working his force of fifty men to the best advantage, and it has been stated by the department that the Camp Lee office is on an efficient basis; but, unless the department authorizes an enlarged post-office here, the postal situation will be thrown almost into turmoil. It will mean that the men in camp will be denied the many Thanksgiving and Christmas packages until long after the time they should be delivered, and as the majority of them will have perishable contents, they will be useless when received.

The Three Hundred and Eighteenth Regiment continues to have numerous noncommissioned appointments. The company commanders have had time to size their men up and those who have proved themselves of the greatest value have been awarded accordingly.

Company M, of this regiment, to-day announced the following appointments: To be sergeants: Ernest E. Boyd, Frederick, and Howard W. Marlow, Washington, D. C.

## CONTROL OF ENEMY ALIENS

Enforcement of More Drastic Measures Planned at Conference in New York.

(By Associated Press.)

NEW YORK, November 5.—Enforcement of more drastic measures to control enemy aliens was planned at a conference here to-day of representatives of the Department of Justice, the United States Secret Service, and the police, called as a result of suspicious fires on the water front and recent damage to government property and ships.

Suggestions were made that enemy aliens be moved from seaport towns to the interior.

Foodstuffs gathered for the use of the army and navy will be closely guarded, not only along the coast, but at inland storehouses. The regulations that will be adopted here are part of a nation-wide movement for the better protection of the country against enemies, it was announced.

pion when he was awarded a decision by Referee Goldman over Frankie Burns, of Jersey City, at the end of a twenty-round bout here to-night.

It was Herman's fight all the way, and, in the opinion of many ring-side authorities it was only Burns' ability to stand punishment and his ring generalship that saved him from being knocked out.

Herman was credited with thirteen rounds, Burns four and three were even.

Burns led the fighting in the early rounds, apparently seeking to bring the fight to a quick close by the knock-out route. After the tenth, however, he tired, and, with the exception of a rally in the fourteenth, was as good as out of it. In several rounds Herman started furious offensive tactics, chasing his opponent around the ring and raining blows on his ribs and face. He seemed to have everything but a knockout blow. Burns delivered several hard body blows in the seventh that seemed to bother Herman considerably.

In the eighteenth round, the bell found Burns groggy and weakening. The final round saw Herman, apparently as fresh as when he started, and a knockout seemed certain just before the final gong when the champion had Burns in his own corner administering severe punishment. A crowd estimated at about 10,000 persons witnessed the fight.

The betting ranged from 8 to 5, before the fight started, to 7 to 5 during the early rounds, with Herman the favorite.

To-night's fight will be the last for Herman before entering the National Army November 15. He received \$5,000 for to-night's fight.

## The Finest Line of Overcoats Berry's have ever had!

It isn't anything new for us to have more woollens than anybody else in Richmond—it is a habit!

But it is a tremendous achievement to have assembled our greatest collection of Overcoats in a period of universal scarcity.

It proves conclusively to Richmond that it takes more than a shortage of pork to stop Berry's from bringing home the bacon.

We have no excuses to offer, no apologies to make, and no explanations—we have the woollens, and that is all there is to it.

No matter what you hear in other shops—no matter what you read in the papers—no matter what opinion you yourself have formed as to the scarcity of woollens—there's a banquet on at Berry's that makes the average selection of Overcoats look like a sewing circle tea!

Thousands still making in our workrooms!

And yards and yards of woollens yet on ice!

Such is the woollen situation to-day at BERRY'S!

Suits and Overcoats, \$15, \$20 and up.
